## Important Notice

Subject always to any existing terms and conditions agreed between you and NICE or any Affiliate with respect to the products which are the subject matter of this document. Neither NICE nor any of its Affiliates shall bear any responsibility or liability to a client or to any person or entity with respect to liability, loss or damage caused or alleged to be caused directly or indirectly by any product supplied or any reliance placed on the content of this document. This includes, but is not limited to, any interruption of service, loss of business or anticipatory profits or consequential damage resulting from the use or operation of any products supplied or the content of this document. Information in this document is subject to change without notice and does not represent a commitment on the part of NICE or any Affiliate.

All information included in this document, such as text, graphics, photos, logos and images, is the exclusive property of NICE or an Affiliate and is protected by United States and international copyright laws. Permission is granted to use, view and photocopy (or print) materials from this document only in connection with the products to which this document relates and subject to the terms of license applicable to such products. Any other use, copying, distribution, retransmission or modification of the information in this document without the express prior written permission of NICE or an Affiliate is strictly prohibited. In the event of any permitted copying, redistribution or publication of copyrighted material, no changes in, or deletion of, author attribution, trademark legend or copyright notice shall be made.

Products supplied may be protected by one or more of the US patents listed at [www.nice.com/Patents](http://www.nice.com/Patents)

## Reconstruction: CAD Searching

- 1 Within the Search panel, expand The **CAD Search** section and click the **Browse ...** button.
- 2 Define time period search parameters.
- 3 Define any additional search fields.
- 4 Click the **Find Incidents** button. Search results are displayed in the Results table below.
- 5 Use the **Filter incident by** drop down lists to find the required incidents.
- 6 Select up to 10 incidents/events from the Results table using standard Windows Shift and Ctrl methods.
- 7 Click the **Search** button. The results are now viewable in the Timeline display and Results table.
